### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenneth Green on 3/22/05.

The application has been amended as follows:

Claim 20, lines 2-5, replaced "sliding a tubing end over an arm of a tubing connector; inserting a tool through an access hole in the tubing end; and tightening a taper threaded screw residing in a taper threaded hole in the arm with the tool" with -- providing a corner piece having at least one arm, wherein the at least one arm is attached to said corner piece at a proximal end of the arm, and wherein the at least one arm extends away from said corner piece and has a distal end opposite the proximal end, said at least one arm having a central axis, and including: a slice extending to the distal end of the said at least one arm and separating the distal end of said at least one arm into a first finger portion and a second finger portion; and a taper threaded hole approximately centered on the slice and approximately orthogonal to the central axis; sliding a tubing end over the at least one arm; inserting a tool through an access hole in the tubing end; and tightening a taper threaded screw residing in the taper threaded hole in the arm with the tool to spread the finger portions apart to secure the tubing end on the at least one arm--

2. The following is an examiner's statement of reasons for allowance: the prior art of record neither teaches nor suggests all of the claimed subject matter of claims 1, 18, and 20 including the arm having a slice separating two finger portions and a tapered threaded hole in the center of the slice and a tapered threaded screw residing in the taper threaded hole in the arm to spread apart the arms.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John R. Cottingham whose telephone number is (571) 272-7079. The examiner can normally be reached on Monday - Thursday, alternate Fridays.
